

Sports Credit Proposal

Rationale:

Utah regulations have changed since the board last approved the sports credit substitution policy. In accordance with R277-700-6 15 b and to encourage cadet participation in sports, we propose amending the current policy.

Proposal:

UMA will award credit for sports participation in up to two separate sports for the elective Physical Education courses: Participation Skills and Lifetime Activities.

Implementation:

For sports completed at another school. i.e., (within UMA and USHAA policy), verification that the cadet completed the entire sports season will be requested on a form from the athletic director of that school. For UMA cadets in UMA sports, our athletic director will provide a list of cadets who completed a sports season to the counseling department. The counselors will determine which PE credit to award and then record the course in the cadet's history with a .5 credit with a pass (P) rather than a letter grade. Cadets who have already earned credit for 2 sports will not be awarded additional credit. Counselors will indicate which sport credit was earned in the notes section of the course history record.

Approved by UMA Board of Directors on 2/2/2026

UTAH MILITARY ACADEMY

Application for Physical Education Credit

This is to certify that _____ participated and completed a season of a USHAA-sanctioned or UMA-approved sport. The applicant is eligible for Physical Education elective credit in Participation Skills and/or Lifetime Activities.
