Subject: Acadience Reading Spring 2026 Progress Monitoring Rates
To: Veasey, Rick <rveasey@lakeview-academy.com>, Jennifer Segbefia
<jsegbefia@lakeview-academy.com>

Hello Rick and Jennifer,

This email is to provide you with information concerning progress monitoring fidelity between February and March 2026 for grades K-3. The data shows the percent of students that were progress monitored at the rate of every 1-2 weeks for students who have a well below (red) composite score and every 2-4 weeks for students who have a below (yellow) composite score.

	Below PM Rate	Well Below PM Rate
Lakeview Academy	95.9%	96.4%

A certificate of achievement has been included for having 90% or more at rate for both below and well below progress monitoring. Please let the school administration and staff know that we recognize and appreciate their efforts to progress monitor students and to help improve literacy at your school.

As you know, regular progress monitoring is crucial for identifying areas of improvement, providing timely interventions, and ensuring that students are meeting their academic goals. Thank you for your dedication to your students' success and please keep up the great work!

Sincerely,

Dallas Brooks
