

## IMPORTANT NOTE

In 4th grade, students will rotate between classrooms for their core subjects. Because we do not have lockers like middle school students, each student will be provided with an individual tote to carry from class to class.

Due to the limited space in these totes, many classroom supplies will be provided as needed. **Students cannot have personal pencil boxes in their totes, as this takes up valuable space.** Students will not need to carry their own coloring supplies, extra pencils, glue, or scissors. All necessary materials will be provided by their teachers throughout the day based on the activities and assignments.
