NOTICE OF DATA BREACH

The purpose of this letter is to notify you about the unauthorized access, acquisition, disclosure, loss of access, or destruction of your personal data held by Utah Military Academy (“UMA”). This notice has been provided to you without unreasonable delay as described in Utah Code § 63A-19-406. At this time the scope of the data breach has been determined, and the integrity of the affected system has been restored.

What Happened?

A malicious individual accessed our bank account, including our payroll system. Based on log information obtained from our bank, there is no evidence to suggest that the threat actor obtained access to any current or former employee’s full bank account numbers.

What Personal Data Was Involved?

We use this bank account to initiate payroll payments to UMA employees. Although the account could permit access to current and former employee names, their banks’ routing numbers, and a portion (the last 4 digits) of their direct deposit bank account number, we do not believe the individual accessed this or any other information. Given the type of data available on the bank portal, we do not believe there is a reasonable risk that the data could be used to commit theft, fraud, or other harmful activity.

What We Are Doing.

We have implemented additional security measures designed to prevent reoccurrence of such an attack and to protect the privacy of your personal data. We are also working closely with law enforcement so that this incident is properly addressed.

Although we have no evidence that any of your personal data was actually accessed or misused, we have also arranged to offer you, at no cost to you, a comprehensive credit monitoring service for two (2) years provided through Epiq – Privacy Solutions ID. Instructions on how to activate these services are below:

- 1) Visit www.privacysolutionsid.com and click "Activate Account."
- 2) Enter the activation code sent to you via email, mail, or text and complete the enrollment form.
- 3) Complete the identity verification process.
- 4) You will receive a separate email from noreply@privacysolutions.com confirming your account has been set up successfully and will include an Access Your Account link in the body of the email that will direct you to the log-in page.

- 5) Enter your log-in credentials.
- 6) You will be directed to your dashboard and activation is complete.

Additional information describing your services is included with this letter in (“Other Important Information”).

What You Can Do.

As a precautionary measure, we recommend that you remain vigilant by reviewing your account statements and credit reports closely. If you detect any suspicious activity on an account, you should promptly notify the financial institution or company with which the account is maintained. You also should promptly report any fraudulent activity or any suspected incidence of identity theft to proper law enforcement authorities, including the Utah Attorney General and the Federal Trade Commission.

Please also review the “Other Important Information” document included with this letter for further steps you can take to protect your information, including recommendations by the Utah Attorney General’s Office, the Utah Division of Consumer Protection, the Utah Department of Public Safety and Statewide Information and Analysis Center, the Federal Bureau of Investigation, the Federal Trade Commission, and the Securities and Exchange Commission.

Sincerely,

LTC William K. Orris, EdD
Superintendent
Utah Military Academy
